Profile

I am a Full Stack Web Developer with a hand in many fields. I am a graphic designer and music composer. I've worked on a variety of projects in different capacities from making directing/editing a documentary, had my art in some art shows, to PAing for some movies. My wide range of experience makes me well-rounded candidate. I am experienced in HTML, CSS, Javascript, jQuery, and Bootstrap. I also know how to use Ableton Live/Suite and Final Cut Pro.

Experience

Product Zone Specialist, Apple; Freehold, NJ — 2014-2018

A top ranking sales specialist who is highly skilled in multi-tasking, conflict resolution, time management, mentoring new workers, up-to-date on technology news, and who is also a self-starter.

Intern, Hypnotic Productions; New York City, NY — 2011-2012

Worked for the acclaimed director Doug Liman (Mr. and Mrs. Smith, The Bourne Identity, Edge of Tomorrow), assistant to the executive secretary, editorial intern for their MTV series "I Just Want My Pants Back", and produced script coverage.

Intern, Independent Filmmaker Project; Brooklyn, NY — 2011

Assistant to the Development Manager, created and edited Power Point, Excel and Access files for managing donations for the Gothic Film Awards and Independent Film Week.

Intern, Clear Channel (now iHeartRadio); New York City, NY — 2009

Managed and edited audio archives of interviews with major figures in the film, tv and music industry, along with researching social media and affiliated websites to keep their website up to date with major music related stories.

Education

Rutgers University Boot Camp. Full Stack Web Development (MERN), 2019

State University of New York at Oneonta, Oneonta, NY — B.S. in Mass Communication, 2011

Skills

HTML, CSS, Javascript, jQuery, React.js, Bootstrap, Google Fonts, Firebase, MongoDB, MySQL, GraphQL, Adobe Illustrator, Final Cut Pro, Ableton Live/Suite
